### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Samuel M. Korte on 02/19/2008:

In claim 26, line 5, before "aircraft", "the" has been deleted; same line before "aircraft", --an-- has been inserted.

### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

This communication is an Examiner's reasons for allowance in response to application filed on 08/20/2001, assigned serial 10/720,371 and titled "System, Method and Apparatus for Searching Geographic Area Using Prioritized Spatial Order".

The following is the Examiner's statement of reasons for the indication of allowable subject matter:

The examiner has performed a variety of search in some areas relevant to the subject matter of claim 26, however, none of the prior art has been found fairly suggests the method of searching geographic data for a terrain awareness warning system comprising identifying a first search vector for the geographic data based upon at least a first direction of travel and a first location of the aircraft at a first time, the search vector having a first length representing a look-ahead distance, the first search vector dependent upon a vertical velocity of the

aircraft at the first time and independent of the flight angle of the aircraft at the first time; copying into a memory buffer having cells, a first subset of the geographic data corresponding to and encompassing cells corresponding to a geographic region through which the search vector extends.

For that reasons, the application is now set in a condition of allowance.

### ***Conclusions***
